

Slotted Channel Ferrofix glued flange H: 6mm, 17x4000mm, outer

Article information

Item no.: 6202401 GTIN: 4026092099674 Price group: 80

Advantages

- Made of particularly a hygienic and mechanically highly resistant stainless steel
- Variably combinable with suitable drain bodies

Description

The Ferrofix slotted channel made of stainless steel with a material thickness of 1.5 mm (pickled in the immersion bath) is equipped with ground crosspieces, longitudinal and transverse gradients, feet for height adjustment and stainless steel outlet nozzles. The channel profile is suitable for thin-layered floorings (e.g. epoxy resin) and has an all-round adhesive rim (6 mm deep and 50 mm folded outwards) with welded mitres. The glued flange is also suitable for connecting waterproofing.

Variant Waterproofing layer on the upper section: Position of sink trap:	Adhesive flange (suitable for moisture barriers) outside
General characteristics Material: Nominal size (DN): Outer diameter (OD):	Stainless steel 14301 125 125 mm
Glued flange height:	6 mm
Dimensions Longth:	4000 mm
