Advantages

- The channel profile is suitable for installation situations with high thermal loads
- Made of particularly a hygienic and mechanically highly resistant stainless steel
- Variably combinable with suitable drain bodies

Description

The Ferrofix box channel made of stainless steel with a material thickness of 2.0 mm (pickled in the immersion bath) is equipped with polished visible ridges, longitudinal and transverse slopes, feet for height adjustment and stainless steel outlet nozzles. The channel profile is suitable for installation situations with high thermal loads. The tile connection angle profile protects against tile breakage at the edge.
