

Upper Section LW 600 Polymer, height-adjustable 79 - 579 mm

Article information

Item no.: 860156 GTIN: 4026092102527 Price group: 60

Description

Upper section with clamping ring suitable for chamber system LW 1000/800/600 for class A/B or D covers, continuously height-adjustable by 500 mm (Komfort and engineering chamber system) or 486 mm (standard chamber system).

If installed in roads, parking areas and comparable hard-surfaced traffic areas for trucks (Class D), a reinforced supporting slab made of concrete must be laid under the upper section on site. A standard formwork and reinforcement drawing can be provided.

Access steps must be installed if the allowable difference between the top of the chamber cover and the first step is exceeded (art. no. 860109).

80 mm (Komfort and engineering chamber system) or 94 mm (Standard chamber system and cisterns).
