

## Grease separator EasyClean free NS 4, Auto Mix & Pump

## Article information

Item no.: 93004.01/PVS GTIN: 4026092060988 Price group: 60

## **Advantages**

- Direction of flow can be changed thanks to selfsealing interchangeable hubs
- Clean and odour-free disposal and cleaning
- Customisation possible through control unit

## Description

The separator for greasy wastewater is suitable for free-standing set-up in frostprotected rooms and comes without metallic components in the tank. The collecting tank made of permanently resistant polymer (PE) is equipped with an integrated sludge trap and has a tapered base for fast and clean disposal. Two odour-tight covers with quick-release closures make easy access possible for cleaning and maintenance work. The innovative Shredder-Mix-System with integrated macerating system is responsible for homogenising and circulating the tank contents. Cleaning and odour-neutral disposal takes place via an exterior pump with 2-way valve and actuator which can be disconnected from the tank by a shut-off valve. The fully automatic program run is controlled by a user-friendly control unit with multi-line display that can be integrated into the building management system through a potential-free contact. Cleaning and disposal can be started remotely using the remote control, which is available as an option. Thanks to the customisable cleaning program with fast-selection function, cleaning can be adapted to the local circumstances as required. After disposal, a maximum of 3 litres residual sludge volume is left in the tank. Observance of the Drinking Water Hygiene Directive can be guaranteed through the fully automatic rinsing of the drinking water pipes. 20 year polyethylene warranty.

variant	
Shut-off valve:	yes
Disposal variant:	Auto Mix & Pump
Shredder-Mix-System:	yes
Inspection window:	yes
Nominal size (NS):	4
SonicControl:	no
Disposal system:	Disposal pump
Refill inlet in accordance with DIN 1988:	yes
Type of disposal:	automatic disposal and cleaning system
Water supply:	2 solenoid valves 1"

Variant

material:
Max. pumping capacity: 60 m³/h
Max. pumping height: 17 m
Speed: 2850 U/min
Power P1: 3,6 kW
Power P2: 3 kW
Operating mode: S2 - 30 min.
Type of pump connection cable: H07RN-F 7G 1.5 mm <sup>2</sup>
Impeller type: Radial impeller with macerating system
Length of mains cable for pump: 5 m
Rated current: 6,2 A
Control
Control unit: yes
Motor protection switch: yes
Type of fuse required (RCD): 30 mA
Protection class control unit: IP 54
Mains frequency: 50 Hz
Operating voltage: 400 V
Connection type: Direct connection
Potential-free contact: yes
GSM interface: no
USB interface: yes
Log book function: yes
Multi-line display: yes
Battery buffering: no
Self-diagnosis system (SDS): yes
Type of fuse required (electrical protection): Fuse protection through control unit 400 V
